React Next.js TypeScript Design Systems Agile Delivery

Summary

Frontend Developer with 4 years of experience building scalable, responsive, and user-centric web applications using React, Next.js, and TypeScript. Experienced in enterprise frontend delivery across banking, governance, and risk-analysis domains, with strong focus on reusable component systems and consistent UI standards. Comfortable leveraging AI-assisted development tools such as GitHub Copilot to accelerate delivery and improve engineering productivity.

Skills

Frontend: React, Next.js, JavaScript, TypeScript, HTML, CSS, Redux, MUI
Architecture & DX: Module Federation, reusable component libraries, design systems, internationalization, Agile development
Tools & Infra: Docker, Git, Nginx, Postman, AWS Linux VMs, CI/CD workflows, GitHub Copilot
Currently learning: Java, Spring Boot, AI-First Engineering (AirTribe)
Design & Collaboration: Figma, UX collaboration, mentoring UI developers, responsive design, accessibility

Experience

Senior Associate Consultant - Frontend Developer Oct 2024 – Present
Infosys

Lead a 6-member team in building an automated solution that generates risk-assessment documents from tender files, reducing turnaround time by 60+ man-hours per case.
Drive UI development across 7 enterprise use cases, guiding 5 developers to implement a unified design system and deliver consistent, user-centric interfaces.
Contribute to Agile delivery cycles through sprint planning, backlog grooming, and iterative releases to ensure predictable and high-quality frontend outcomes.
Partner with an 8-member cross-functional team to design a GenAI-powered contract analysis tool for 30+ document deal reviews, reducing review time by 100 hours per deal and improving risk detection accuracy.
Engineer and maintain Dockerized deployments for 7 projects on AWS Linux VMs, using Nginx reverse proxy to support secure, scalable access and smooth CI/CD workflows.

Tech stack: React, JavaScript, TypeScript, MUI, Vite, Vitest, Docker, Git, Nginx, HTML, CSS

Frontend Developer Sep 2021 – Oct 2024
Deloitte

Delivered scalable digital banking and digital Parliament applications using React and Next.js, improving accessibility and usability for thousands of users.
Owned and maintained 20+ reusable components adopted across 3 enterprise platforms and hundreds of pages, accelerating feature delivery and improving UI consistency.
Worked within Agile teams to align development with sprint goals, improve cross-functional collaboration, and accelerate release delivery.
Designed and implemented a common login module reused across 3 platforms, standardizing authentication flows and reducing duplicate development effort.
Improved reliability across high-traffic interfaces by optimizing Redux state management, simplifying data flow, and reducing critical UI errors.
Mentored 6 UI developers and partnered with 5 UX designers to translate design requirements into consistent, production-ready user interfaces.
Implemented internationalization support across React applications, enabling multilingual experiences for diverse user groups.

Tech stack: React, Next.js, TypeScript, MUI, Redux, Module Federation, HTML, CSS

Education

Bachelor of Engineering Aug 2017 – Jul 2021
BMS College of Engineering
CGPA: 9.14

Academic Project (Oct 2019 – Jan 2020): Generation of Potable Water from Air
Associated with B.M.S. College of Engineering; selected as a semi-finalist team in Texas Instruments IICDC.
Built a thermoelectric-based prototype to condense humid air and obtain potable water.

Certificates

Micro Frontend: Beyond the Basics — Infosys (Sep 2025)
Next.js & React – The Complete Guide — Udemy (Feb 2023)
Credential ID: UC-4b97cb1d-f74f-4b68-a1a1-b7b75d01af35
Figma UI UX Design Essentials — Udemy (Feb 2023)
Credential ID: UC-4ecbc9e9-30c4-4d2b-8172-c33fcd4a02e1

Languages

English – proficient
Kannada – native
Hindi – native
